

SAMPURNA POKHARKAR

 **Email:** sampurnapokharkar@gmail.com

 **Mobile:** +91 9137052322

 **Location:** Pune, Maharashtra, India

PROFESSIONAL SUMMARY

Backend Engineer with **7+ years of experience** building enterprise-grade applications using **PHP (Symfony, CodeIgniter)** and **Python**. Strong expertise in **Python-based data processing, Pandas, statistical analysis, KPI computation, and RESTful APIs**, applied within large-scale Symfony platforms.

Hands-on experience with **Azure DevOps CI/CD pipelines, Docker, MySQL, Linux**, and cloud deployments. Proven ability to work in **polyglot architectures**, using Python for analytics and intelligent features to improve data accuracy, performance, and user experience.

CORE SKILLS

Languages: Python, PHP

Frameworks: Symfony, CodeIgniter, Flask, Django

Data & Analytics: Pandas, Data Cleaning, Data Normalization, Statistical Analysis, KPI Computation

DevOps & Cloud: Azure DevOps, CI/CD Pipelines, Docker

Databases: MySQL, MongoDB

APIs & Tools: RESTful APIs, Git, Postman, Linux, PowerShell

CERTIFICATIONS

- **Microsoft Azure Certification** (Fundamentals / DevOps – Azure Platform)
-

AZURE DEVOPS EXPERIENCE

- Designed and maintained **CI/CD pipelines** using YAML and Classic Pipelines.
- Managed **Azure Repos**, branching strategies, pull requests, and code reviews.
- Configured **Release Pipelines** for Dev, QA, and Production environments.
- Automated builds, deployments, database scripts, and artifact creation.
- Set up build agents, environment variables, service connections, and secrets.
- Used **Azure Boards** for Agile sprint planning and work-item tracking.
- Monitored applications using **Azure Monitor / Application Insights**.

PROFESSIONAL EXPERIENCE

Capgemini — Consultant

Mar 2023 – Present | Pune, India

E-KPI Data Visualization Platform

Enterprise analytics platform providing real-time KPI dashboards and insights using data from external ticketing systems.

Tech Stack: Symfony, Angular, **Python**, MySQL, Docker, Azure DevOps

Responsibilities & Contributions:

- Worked on a **Symfony-based backend** responsible for KPI configuration, business logic, and dashboard data delivery.
- Used **Python (Pandas)** as a complementary technology for:
 - **Data cleaning, normalization, preprocessing, and validation** of large datasets from external ticketing systems.
 - **Complex statistical calculations, aggregations, trend analysis, and KPI computations.**
- Developed a **Python-based chatbot** to assist users with KPI-related queries and analytical insights.
- Integrated Python data-processing components with the Symfony application using internal services and APIs.
- Supported **real-time KPI delivery** across **38+ configurable charts and tables.**
- Collaborated with frontend (Angular), QA, and business stakeholders in an Agile environment.
- Handled **Azure DevOps CI/CD pipeline updates**, deployments, and troubleshooting for QA and staging environments.

Python was used specifically for data analytics and intelligent processing where statistical computation and data manipulation were more efficient than PHP, while Symfony remained the core application framework.

Data Convert & Compare (DCC)

Internal enterprise tool for database migration validation and large-scale data comparison.

Tech Stack: CodeIgniter, MySQL, MSSQL, MongoDB, Sybase, DB2, Oracle

- Implemented data comparison and validation logic for heterogeneous databases.
 - Supported large-scale data transformation and migration accuracy checks.
 - Customized comparison rules based on source and target database types.
-

PREVIOUS PROJECT EXPERIENCE

Review & Grow — Software Developer

- Developed role-based access modules (vendor, admin, editor) using PHP CodeIgniter, HTML, CSS, JavaScript, jQuery.

Axiommerc — Software Developer

- Built market research and analytics components delivering insights on marketing strategy, investments, and competition.

Sales CRM — Software Developer

- Engineered CRM application with lead management, ticketing, invoicing, quotations, and client history.
- Designed responsive UI supporting mobile to 4K displays.

HRMS — Software Developer

- Developed HR modules including employee management, attendance, payroll, leave workflows, tasks, and dashboards.

Industry Watch — Software Developer

- Managed and customized WordPress site with performance optimization, security hardening, SEO, and UX improvements.
-

EDUCATION

- **Bachelor's in computer science**
Mumbai Tilak College of Engineering & Technology — *2013–2015*
Grade: 70.23%
 - **12th (Maharashtra Board)** — 2012 | 59.8%
 - **10th (Maharashtra Board)** — 2010 | 74.8%
-

ACHIEVEMENTS

- Multiple **Spot Awards** at school and college.
-

INTERESTS

Web surfing • Sports • Music • Drawing • Learning new technologies

PERSONAL DETAILS

Date of Birth: 8 September 1994
