PROFILE

Results-driven QA Engineer with 5 years of experience in manual, mobile, and automation testing across web and mobile applications. Skilled in test case design, execution, defect tracking, and Agile methodologies. Hands-on experience in API testing and basic Playwright automation. Experienced in CI/CD environments and committed to delivering high-quality software through effective cross-functional collaboration.

WORK EXPERIENCE

QA Engineer

Ventured Solutions (formerly part of Community Brands)

September 2024 –

April 2026

Pune, India

- Performed manual testing of web and mobile applications across Android and iOS platforms to ensure functionality, usability, and compatibility.
- Designed and executed test cases covering functional, regression, UI, and end-to-end testing.
- Conducted API testing using Postman, validating REST APIs, request/response structures, and status codes.
- Gained hands-on exposure to Playwright automation, assisting in creating and maintaining basic automation scripts.
- Collaborated with developers to debug and resolve defects, including API-related issues.
- Developed and maintained test cases in TestRail ensuring traceability and test coverage.
- Logged, tracked, and managed defects using JIRA and documented test artifacts in Confluence.
- Participated in Agile ceremonies including sprint planning, stand-ups, retrospectives, and reviews.
- Worked in CI/CD environment with basic exposure to Jenkins for test execution.
- Investigated and analyzed test failures, ensuring timely resolution with cross-functional teams.

QA Engineer

Toddle-your teaching partner

May 2022 – August 2024

Pune, India

- Developed and executed comprehensive test plans and test cases ensuring full coverage of functional and non-functional requirements.
- Conducted manual testing to validate application functionality and improve product quality.
- Collaborated with developers, product managers, and business analysts to analyze requirements and define test scenarios.
- Performed API testing using Postman (POC level) to validate RESTful services.

- Logged and tracked defects in JIRA ensuring proper documentation and traceability.
- Participated in Agile ceremonies and contributed to sprint planning and backlog refinement.
- Investigated defects and worked closely with development teams for quick resolution.
- Mentored junior QA members on testing methodologies and best practices.

Junior Quality Analyst Splitvision technologies pvt ltd

April 2021 – May 2022
Pune, India

- Created and executed test cases based on business requirements.
- Performed regression, integration, browser, mobile, and smoke testing.
- Identified, documented, and tracked defects, ensuring timely resolution.
- Collaborated with QA and development teams to improve product quality.
- Participated in Scrum meetings to report progress and discuss issues.
- Contributed to improving QA processes and testing standards.
